Arkansas Student Intervention System

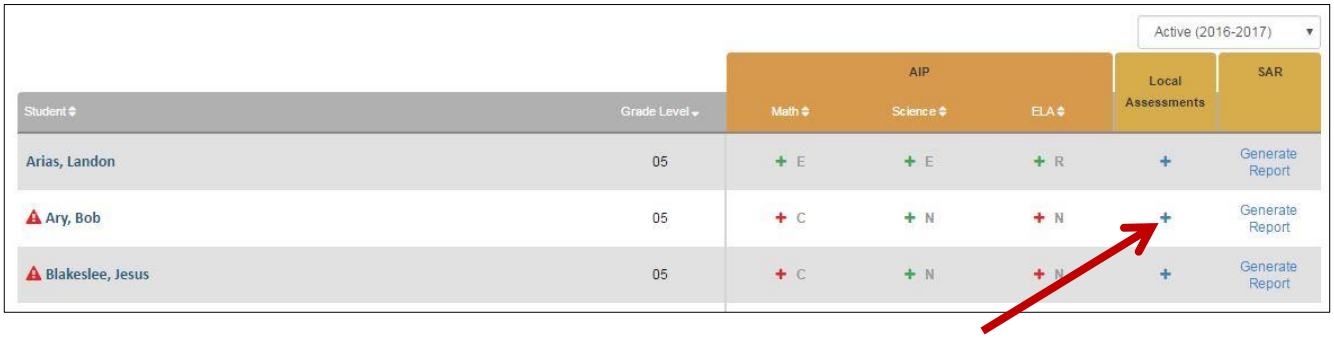
Local Assessments

District/School Level - Tutorial

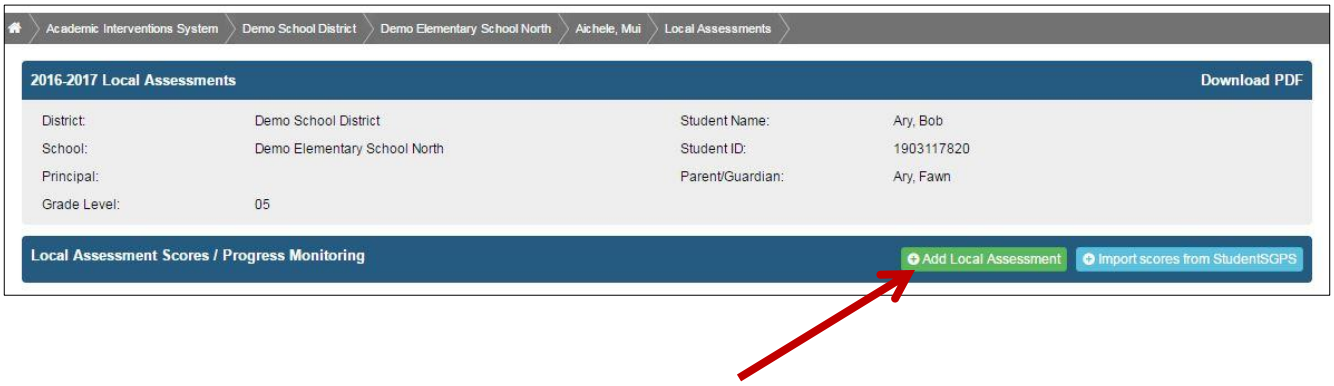
Last updated: October 24, 2016

Local Assessments

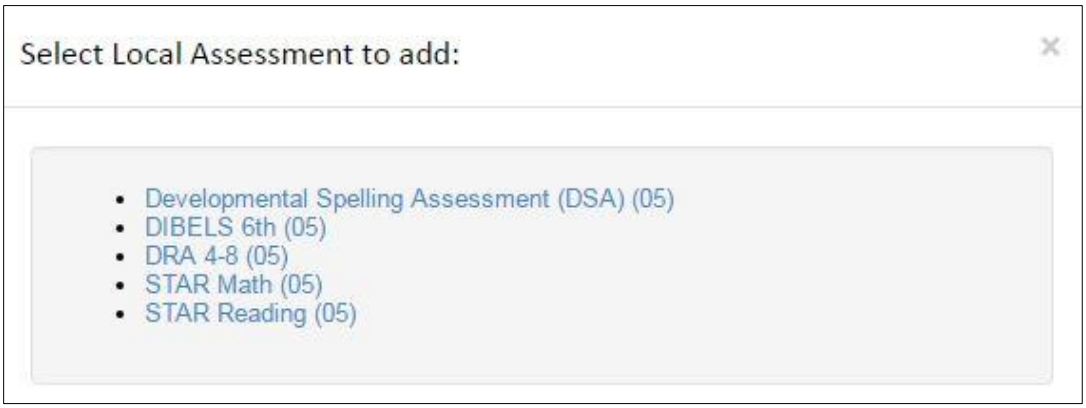
- To add Local Assessment data, select the "+" icon in the "Local Assessments" column:



- Select the "Add Local Assessment" button:

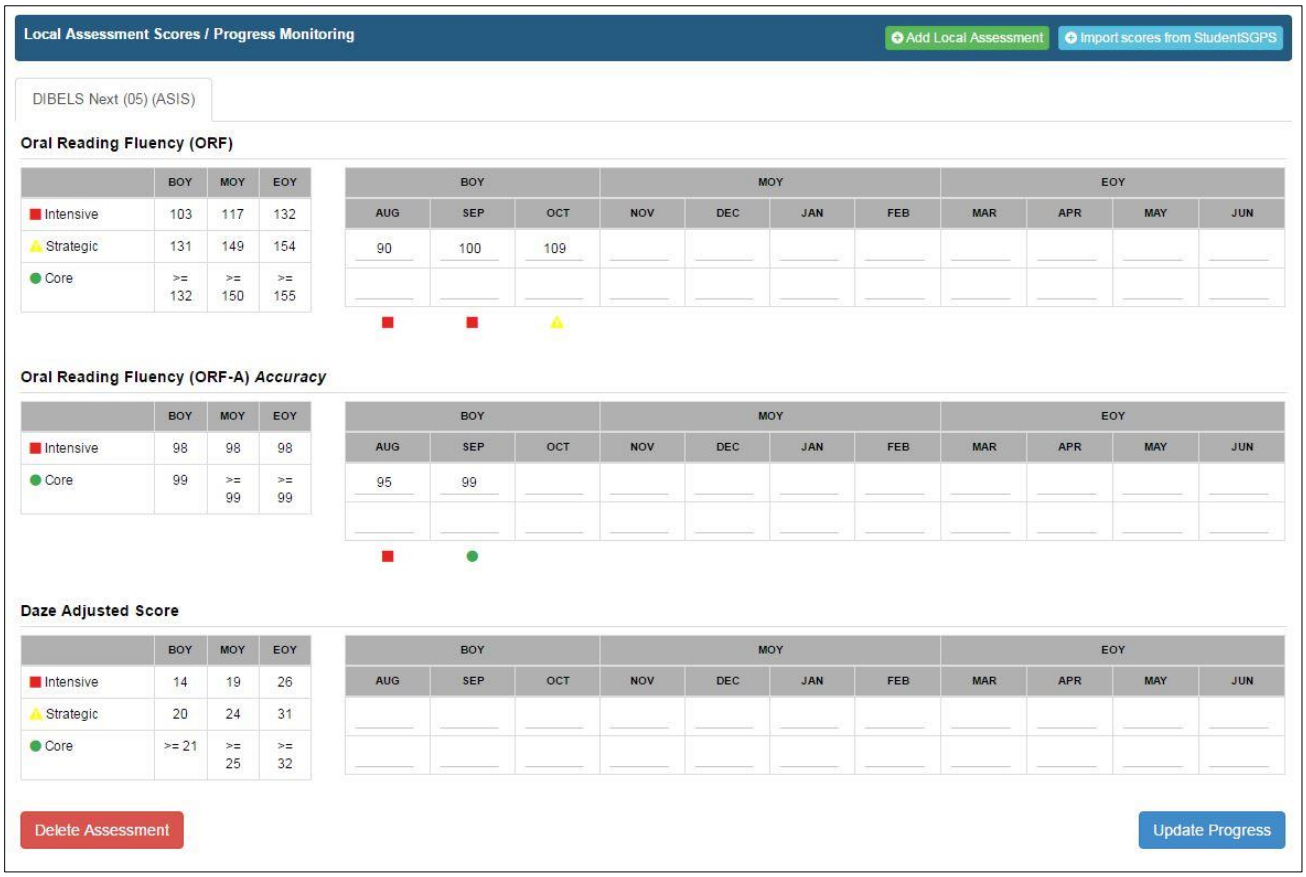


- Select a Local Assessment:



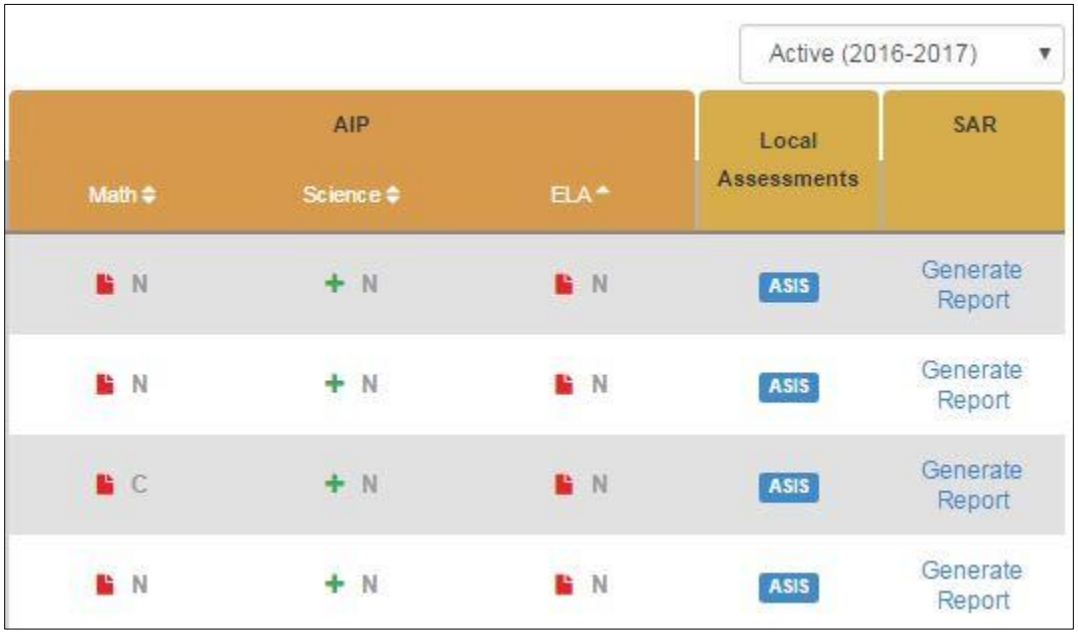
**For instructions on how to add data for an assessment that is not listed, refer to the Add Assessment section of the Teacher Level Intervention Tutorial.*

- The Local Assessment template will populate:



- Users can enter the data directly onto the template. Once finished, users can save by selecting "Update Progress".

- Once scores have been entered, the "+" icon will change to an "ASIS" icon, indicating scores have been entered into the ASIS template:



- If the user has entered Local Assessment data into StudentGPS, the information can be imported into ASIS by selecting "Import Scores from StudentGPS":

- Click "OK"

- The scores entered into StudentGPS will then be displayed on the ASIS Local Assessment template. The "+" icon will change to a "SGPS" icon, indicating the scores were imported from StudentGPS:

AIP			Local Assessments	SAR
Math	Science	ELA		
N	+ N	N	+	Generate Report
C	+ N	N	SGPS	Generate Report
C	+ N	N	+	Generate Report
C	+ N	N	+	Generate Report
N	+ N	+ N	SGPS	Generate Report

- As Local Assessments are given throughout the school year, new scores entered into StudentGPS will continue to populate in ASIS.
