<u>Business rules :</u> - Hispanic indicator is not a race. A race has to be selected regardless of Hispanic indicator. Hispanic indicator is pulled from Reg_personal table Hispanic field. If this field is marked as Y then SIS is pulling Y for this place holder (Y N N N N N) for race field - To find out Race, ethnic code field will be checked in Reg_personal table for codes I, A, B, P, W OR any records in Reg_ethnicity table for the same codes. SIS Race ethnicity will be set as the data found in these tables (NNNNNN) - Ethnic code I - Native American / Alaskan (N Y N N N N) - Ethnic code A – Asian (N N Y N N N) - Ethnic code B – Black (N N N Y N N) - Ethnic code P – Pacific Islander/ Hawaiian (N N N N Y N) - Ethnic code A – White (N N N N N Y) <u>Checks and Validations :</u> - BE - Student is marked Hispanic, but Race is missing: Race cannot equal "YNNNNN" - BE - Student race invalid - VE - Student race invalid
