# Create a Dynamic List

The Dynamic List feature in the StudentGPS Dashboard allows you to monitor students based on selected filters and can serve as an early warning system. Based upon the filters, students will automatically add and drop from the lists. Teachers will be notified of changes to the lists via email notification when a change occurs within the list.

This exercise details the process for creating a dynamic list for TAGG students who have more than 3 days absent.

1. Click on “Customize View” Button

The screenshot shows the StudentGPS dashboard for Flossie Fabian. The 'CUSTOMIZE VIEW' button is highlighted in blue. The dashboard includes a search bar, navigation tabs, and a table of student data.
