Watch List

The Watch List feature in the StudentGPS Dashboard allows you to monitor the performance of select students and can serve as an early warning system. Popular uses include monitoring effectiveness of interventions, monitoring specific programs, and the progress of performance indicator metrics.

This exercise details the process for creating a watch list for students that did not meet 75% or more correct on the Number and Operations Open Response Stand.

1. Select the column header for Number and Operations Open Response to display students with low performance at the top.

2. Select 'Customize View'

3. Select "Create or Add to Watch List."

The screenshot shows the StudentGPS dashboard for Isaac Z. Bratcher. The 'CUSTOMIZE VIEW' button is highlighted with a red arrow. The dashboard displays a table of student performance data for Mathematics (430000111) - Algebra I (1st Period) Spring Semester. The table has columns for Student, Grade Level, Mathematics, Geometry CR, Measurement CR, Number & Operations CR, and Number & Operations MC. The table shows 16 rows of data, with the first three rows highlighted in blue. The first row is for Halght, Shaniqua A., with a score of 790. The second row is for Bridges, Judson J., with a score of 728. The third row is for Jude, Audra L., with a score of 805. The table also shows the number of students with 75% or more correct on each strand: 10 of 14 for Mathematics, 0 of 14 for Geometry CR, 10 of 14 for Measurement CR, and 11 of 14 for Number & Operations MC.
