Grade completion definitions are referenced below the report for grades 9-12.

Grade Completion Definitions	
Name	Definition
Credit Accumulation	Will the student have accumulated 22 credits if they pass all of their current classes?
Satisfactory Assessments	Did the student pass all of their last years state accountability tests?
Disciplinary Actions	Does the student have a clean disciplinary record?
Attendance	Normalized, unit-less number - not currently used in predicted analysis. We are currently analyzing the empirical data collected to determine if predicted analysis can be fine-tuned based on student's actual attendance records.
Predicted Grade Completion	Does the student have a medium probability of graduation?

The report shows students in grades 9-12 who have a medium probability of graduation, based on credit accumulation, satisfactory scores on state assessments, and disciplinary actions. Student attendance is shown, if provided by the district in eSchoolPLUS, but is not currently used in the predicted analysis. Green shows students who reflect an answer of "Yes" for the definitions listed; red shows those that reflect "No".
